**2009/2010 Synchronized Skating
Technical Requirements Clarification**

Please note the following clarification:

1. Level restrictions found in the 2009/2010 Technical Requirements package refer to the Difficulty Groups of Elements (ISU Communication 1532, pg 9-11 and ISU Communication 1574, Appendix A, B & C). When used in the technical requirements document, the term "Level" does not refer to the Level of Elements from the Scale of Values Table (ISU Communication 1532, pg 35-40).
